About Breeding View Breeding View Installer Install Breeding View Obtain License Code Related

## **About Breeding View**

Breeding View (BV) is statistical analysis software that accompanies the Breeding Management System. BV is a collaboration with between the Integrated Breeding Platform and VSNi, the makers of the <u>Genstat</u> statistical package. BV is an extremely user friendly statistical software that allows breeders to quickly access their results. Trial data exported from the Breeding Management System is perfectly formatted for analysis by BV.

Breeding View can be installed on computers running the Windows operating system. You must have administrative access to your computer to install BV. If your institution controls your computer's administrative access, you will need to contact your IT department for assistance.

## **Breeding View Installer**

If you are a licensed BMS user, you will be given a Breeding View installer and license code. See your system administrator for more infromation. If you would like to demo BV <u>contact us here</u> for temporary access.

### **Install Breeding View**

• Select Next.

· Read and agree to the terms of the License Agreement.

End-User License Agreement		
Please read the fol	lowing license agreement carefully	
IMPORTANT - or fully license software, the	Whether you are installir ed (paid) version or any c following applies to you:	ng a free trial version other version of this
This installation process and any usage of the software up to such time as you have installed a licence key (if any) is subject to the terms and conditions set out in the Trial Licence Agreement. Before you can commence the installation you must review the Trial Licence and denote your acceptance of it and agreement to be bound by it.		
If you have al	s in the License Agreement	- vou will still pood to

• Accept the default directory location for BV installation or specify a custom location.

· Select Install.

• Select Yes.

• Select Finish.

• Breeding View can now be opened.

## **Obtain License Code**

#### Users of the SERVER Edition:

If you are using a institutional version of Breeding Management System and BV, a license code will be provided to you by your institution. If you are using a demonstration version of the Breeding Management System and BV, a temporary license code will be provided to you by your IBP Deployment Representative along with your access to the demo server.

#### Users of the DESKTOP Edition:

Upon downloading the BMS for the first time, you get a free trial license by<u>requesting one here</u>. After the trial period, or if you are a returning user, you may <u>request a license renewal here</u> (at a fee in some cases, depending on your situation.

• Enter your license code and select Activate.
