Roles

A few roles are established by default, but these are are customizable at the time of installation. See your site administrator for more information about the permissions assigned each role on your installation.

Default Roles

- · Super Admin: Has complete access to entire system
- Admin: Has complete access to assigned programs
- · Breeder & Technician: Have some restrictions within assigned programs
- · Read Only: Are only able reserve/withdraw seed inventory and review studies (no study editing)
- Enter user details and Add User. By default the user is set to be "Active" and will receive an automated email to set their password when Add User is selected. Deactivate an existing system user by opening their profile and selecting "Inactive" & Add User.

Email Notification

When a new user to the BMS, the user will receive an email containing a temporary url link.

· Follow the link to establish your password.

Hello, Gregor Mendel

We've received a request to reset the password for this BMS account. Click on the link below (or copy and paste the URL into your browser):

http://52.72.188.136:48080/ibpworkbench/controller/auth/reset/f2393806-606f-4f00-8aba-76d2f98ad985

This URL will expire after 24 hours

If you no longer wish to make this change or if you did not initiate this request, please disregard this e-mail.

Set Password

The temporary url link sent to your email, leads to a page where you can set or reset your password.

- Enter your password twice and select Reset Password.
- Bookmark or save the url corresponding to the server installation of the BMS for future access.

Login

The BMS will automatically log out inactive users.

• Login to the BMS by navigating to the url and entering username and password. Select Remember Me if you want to automate login from your computer. Select Sign In.
