

Study Settings

BMS 16.0-17.0 Manual

Study Settings

Use study settings to describe information that applies to the entire study.

- Select Add button associated with Study Settings to add management details about the study.

The screenshot shows the IBP interface with the 'MANAGE STUDIES' section. The 'EFG Performance Trial' is selected. The 'STUDY SETTINGS' tab is active, and the 'Add' button is visible.

- Select the study-level details from the ontology-defined drop down menu options.

The screenshot shows the 'Add Study-Level Settings' dialog box. The dialog box displays a list of study-level settings, including 'INSTITUTE (Study Condition)' and 'STUDY_INSTITUTE', with their respective methods and scales.

- Enter the details for each of the study settings. Depending on ontology settings the different details maybe free text, a choice from a drop down menu, or a specific date format.

The screenshot shows the IBP interface with the 'MANAGE STUDIES' section. The 'ABC Performance Trial 2019' is selected. The 'STUDY SETTINGS' tab is active, and the 'Add' button is visible. The form displays fields for 'Study_Note', 'PI_NAME', 'STUDY_INSTITUTE', and 'Cooperator_Email'.
